■ Módulo Acústica de Salas (MAAM-PAA)

L1 Nivel de presión 1 L2 Nivel de presión 2

L1 es menor o igual a L2

K = 3 dB

Diferencia entre los dos niveles a sumar (L2-L1)

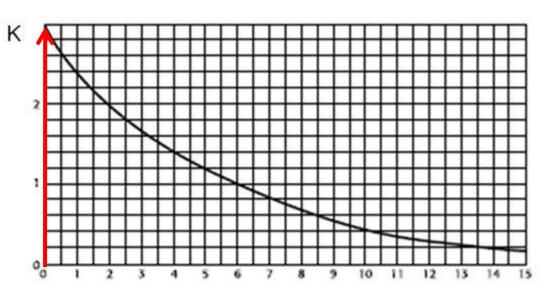

$$Ltotal = L2 + K$$

$$L1 = 80 \text{ dB}$$

$$L2 = 80 dB$$

$$K = 3 dB$$

Diferencia entre los dos niveles a sumar = 0 dB

Ltotal =
$$L2 + K = 80 + 3 = 83 dB$$

$$L1 = 80 \text{ dB}$$

 $L2 = 83 \text{ dB}$

Diferencia entre los dos niveles a sumar = 3 dB

Ltotal =
$$L2 + K = 83 + 1,6 = 84,6 dB$$

$$L1 = 80 dB$$

$$L2 = 86 \text{ dB}$$

K = 1 dB

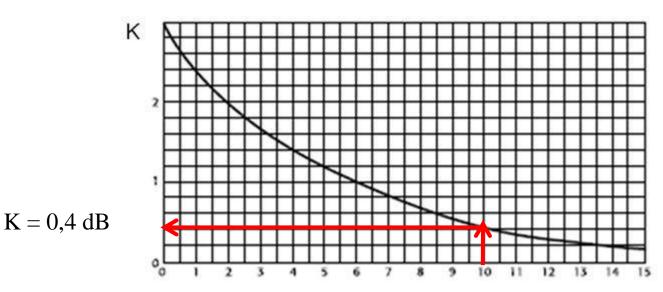

Diferencia entre los dos niveles a sumar = 6 dB

$$Ltotal = L2 + K = 86 + 1 = 87 dB$$

$$L1 = 80 dB$$

$$L2 = 90 dB$$

Diferencia entre los dos niveles a sumar = 10 dB

Ltotal =
$$L2 + K = 90 + 0.4 = 90.4 dB$$
